HSA Advocates Advises Tata Capital on Financing of Renewable Energy Projects of Hexa Climate Solutions

HSA Advocates advised **Tata Capital Limited** on a rupee term loan facility extended to **Hexa Climate Solutions Private Limited**, for the infusion of funds towards project-related capital expenditure, including capital expenditure for solar and wind power projects being developed by Hexa Climate and its group entities.

Hexa Climate Solutions Private Limited is a renewable energy company focused on the development and operation of solar and wind power assets across multiple states in India. This financing supports the expansion of Hexa Climate's renewable energy portfolio and reflects Tata Capital's continuing focus on funding infrastructure and clean energy projects across India. The transaction forms part of the broader push towards strengthening India's renewable energy capacity through institutional financing of scalable green energy platforms.

HSA advised on the structuring of the financing and security framework, negotiated the terms of the loan agreement and related financing documents with the borrower and its legal advisors, and drafted and finalized the financing and security documentation in accordance with the terms set out in the sanction letter, ensuring adequate protection of the lender's interests. This transaction underscores HSA's expertise in advising lenders on the financing of complex infrastructure projects, particularly in the energy sector, through robust documentation and pragmatic risk assessment.

HSA's Banking and Finance team advising on the transaction was led by **Srivar Awasthi** (Associate Partner) and supported by **Avi Yadav** (Principal Associate).
